

LG SOLAR MODULE LIMITED WARRANTY

The limited warranties specified below (hereinafter “**Limited Warranty**”) apply to LG Solar Module models listed under Section 11 below (hereinafter “**Module(s)**”) sold by LG Electronics U.S.A., Inc. (hereinafter “**LG**”) and installed by a licensed contractor under applicable local and state laws, and extend only to the original end use purchaser and subsequent owner(s) of the location on which the Module(s) is originally installed (all such persons hereinafter referred to as “**Customer**”). The warranty start date (“**Warranty Start Date**”) shall be the date of purchase by the original end use purchaser. If the Customer is unable to provide adequate documentation of the original purchase, the Warranty Start Date shall be ninety (90) days after the Module(s) was manufactured.

1. 25 Years Limited Warranty for Module(s)

LG will, at its sole option, repair or replace the Module(s) if it proves to be defective in material or workmanship for a period ending 25 years from the Warranty Start Date under normal application, installation, use and service conditions.

2. 25 Years Limited Warranty for Power Output

LG warrants that for a period of five (5) year from Warranty Start Date the actual power output of the module will be no less than 95% of the labeled power output. From the 6th year, the warranty for power output will decline annually by 0.4% in each of the remaining 20 years, so that during 25th year, an actual output of at least 87.0% of the nameplate power output specified on the Module will be achieved. The power output values shall be those measured under LG’s standard test conditions as follows: (a) light spectrum of AM 1.5; (b) an irradiation of 1000 W per m^2 and; (c) a cell temperature of 25 degrees centigrade at right angle irradiation.

If the Module does not meet the warranted power output levels set out above when measured by LG or by an independent measuring institute agreed to prior to testing by LG under standard test conditions (IEC 61215) taking into account a $\pm 3\%$ measurement tolerance range, LG will, at its sole and absolute discretion, either (i) repair the Module(s); (ii) supplement such deficiency in power by either: (a) providing additional Module(s) to the Customer, or (b) replacing the Module(s); or (iii) Refund the difference between guaranteed minimal power output and actual power output (measured under LG’s STC) multiplied by the then current market price of the Module(s) or a comparable model at the time of the Customer’s claim.

3. How this Limited Warranty Applies

The remedies set forth in this Limited Warranty shall be the sole and exclusive remedies, and the original warranty period in this Limited Warranty shall not extend beyond the period set forth therein, nor will a new warranty period begin, upon repair, replacement or pro-rated refund due to power loss at LG’s sole option provided under this Limited Warranty.

Repair or replacement will be made with new or re-manufactured Module(s) or parts and the replaced Module(s) or parts shall become the property of LG. In the event the Module(s) is no longer available, LG reserves the right, at its sole option, to deliver new or remanufactured Module(s) that may differ in size, color, shape, model number, and/or power level.

This Limited Warranty covers the transportation cost for reshipment of any repaired or replaced Module(s) to the Customer site, but does NOT cover the transportation cost and risk including shipping damage or loss for return of the Module(s) to LG or LG's authorized agent and any other costs associated with installation, removal, or re-installation of the Module(s). If Module(s) returned to LG is found not to be defective or this Limited Warranty has expired, the Customer is responsible to pay for return shipping cost.
